FOR THE TRADE ONLY.

The Barta Press
Boston

WE present you with our compliments — our Finished Price List for 1915.

VERMONT MARBLE COMPANY

Terms.

1st. On all monumental marble, settlements are required within thirty days from the date of invoice, by cash, less 3 per cent, or by satisfactory bank note of even date with invoice in full at three months, with exchange on New York, in either case; otherwise bills will be treated as due from date of invoice and subject to sight draft.

2d. A discount of 5 per cent will be given on Vermont marble of our production in carload lots of 36,000 pounds or more in ONE ORDER.

Prices other than those quoted in this list are not subject to carload or cash discounts.

3d. All claims for errors in measurements or for unsoundness must be made within twenty days from receipt of marble, and no charge for work on defective marble will be allowed.

4th. All new customers will please give references at the time of giving their order.

All marble will be carefully loaded on the cars free of charge and shipped the day the bill is dated, which is a delivery to the purchaser. The Railroad Company's receipt shall be sufficient evidence of such delivery.

Unless otherwise directed, we ship all marble by the cheapest route and subject to the official Freight Classifications.

Should overcharges occur and you desire us to assist in collecting the same, please send the original paid freight bill and bill of lading, and in case of overweight, a weigher's certificate of the weight.

In case of damage the delivering Freight Agent must certify to the damage, on the original paid freight bill, before the goods are removed from the Freight Station. If this is not done a collection from transportation company cannot be made.

No Goods Sent C. O. D. or Sold at Retail.

PHOTOGRAPHS.

The value of a good photograph can hardly be estimated. Its influence on a prospective customer frequently counts for more than the salesman's argument. Indeed, many instances might be cited to prove that a well chosen list of photographs is in itself a salesman of no mean ability.

With this thought in mind, we have endeavored to keep our gallery thoroughly equipped in every way. That its efficiency has been appreciated is evidenced by the growth of the department — a growth that has been attended by the addition of hundreds of new negatives.

All large size monumental photographs will be mounted on linen (flexible) and finished with a beautiful mirror gloss surface unless otherwise ordered. This is the finish that is made by the so-called "squeegee" process that has become so popular with the trade.

It has been deemed advisable to discontinue the use of the small negative. All the new designs will be obtainable only in large size photographs. We can still furnish the small size in the old designs.

Photographs will be furnished at the following prices:

Large size (10½ by 13½ in.) flexible, per doz.	$5.00
Small size (4½ by 9 in.) flexible, per doz.	2.00
" " " " cards, " "	2.00
Large size photographs bound in book form, per doz.	5.00
Extra per book, Cloth binding	1.50
" " " Leather binding	3.00

Small size photographs bound in book form without extra charge if three dozen or more are bound in one book.

A discount of 20% will be allowed on photograph orders amounting to or more than $15.00.

Epitaph books, each 25c., per doz.	$2.50
Expeditious Calculator, each	2.50

DESIGN BOOKS.

Design Book "K" is a collection of one hundred and twenty-five selected Cross Designs. In this new book we have included all the latest photographs as well as the old favorites, each . . . . . $ .75

Design Book "L." A recent fire destroyed practically our entire supply, but we still have a few copies. This book contains over three hundred photographs, each $1.00

Design Book "M." Our latest book of designs. Will contain about three hundred of our latest and especially selected photographs. Ready for distribution March 1st, each $1.00

Design and Sample Cases.

Case "A."

Made from selected sole leather, brass trimmed, with sewed joints and extra protection on the corners. The interior is lined with plush throughout and provided with two hinged partitions. Size, 16½ by 13 in., each . $15.00

Case "AA."

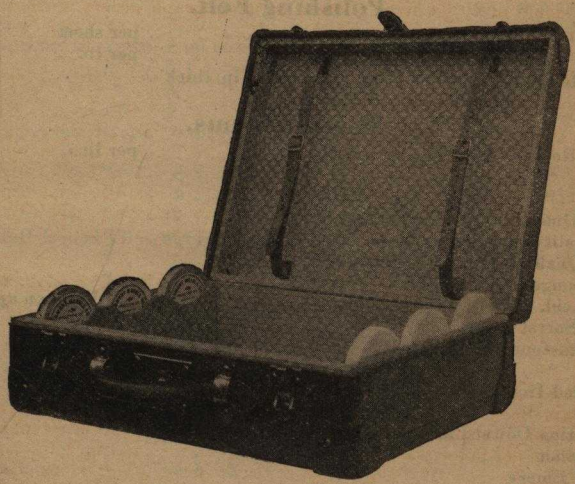
A flexible all leather case with all joints sewed, containing two large pockets for photographs and designs, also smaller compartments for order books, stationery, samples, etc. Thoroughly durable and yet light enough to be easily carried. As good a case as can be procured. Size, 16½ by 12½ in., each $15.00

Case "B."

Similar in style to casé "A." Some of the joints are riveted instead of sewed and portions of the interior are lined with canvas. Size, same as case "A," each $10.00

Case "BB."

Made from selected sole leather. A plain case without partitions, lined throughout with genuine linen. Cover reinforced with steel valance. A good case for agents wanting something smaller and plainer and of best quality. Size, 15½ by 12½ in., each $10.00



Case "C."

Case "C."

Also of sole leather and brass trimmed. All joints are riveted. The lining is of canvas and there are no partitions. Size, same as case "A," each, $6.00

Hints for Cleaning Marble.

For nearly all stains on monumental work, except those resulting from oil, use javelle water. This is a simple preparation made from chloride of lime and washing soda. It can be obtained at any drugstore. Frequent and copious application of this liquid will usually restore the marble to its natural condition. It may also be used to good advantage when dirt has become hardened on the surface.

When the stain comes from oil, gasoline of good quality should be used. Saturate cotton waste or blotting paper and press it firmly down on the marble. Allow it to remain for a day or two if necessary, wetting it often with gasoline. The process may be accelerated by the introduction of sunlight or some form of artificial heat.

When these remedies prove ineffective, the only thing to do is to set the monument out in the open and trust to the action of the sun and frost. This will sometimes succeed when all else fails.

Every cemetery memorial should be cleaned with javelle water once or twice a year, and all the dirt and moss that has started to collect should be removed. If foreign substances are allowed to accumulate, they absorb moisture. This tends to roughen the surface and in turn invites the absorption of more moisture. Keep the marble smooth and uncoated and this damage will be averted.

The monument that has once become roughened can best be restored by thorough treatment with pumice stone or fine grit. It is a practice more or less general to use as a renovator a weak solution of muriatic acid. This should never be permitted. The immediate results may appear to justify the treatment, but in the end you will find that the stone has been greatly injured.

If marble is given the care that it deserves, the care that any valuable product should receive, there will be no change in its appearance. It will go down through the centuries reflecting the same brilliancy and distinctiveness that it reveals to-day.

Monumental Department.

The purchaser's attention is especially called to the following general rules regarding finished work:

TRACING ON ALL MONUMENTS AND TABLETS will be done as shown in the designs unless otherwise ordered.

TRACING OF EPITAPHS, where shown, is done without extra cost.

TRACING ON URNS AND OTHER TURNED WORK, even though shown in designs, will NOT be done without special instructions, if balance of monument is not ordered finished.

BOXING of all monuments and crating of Bottom Bases are included in the prices for finished monuments given in this price list.

WHERE INSCRIPTIONS ARE SHOWN on any photographs or cuts, such lettering is NOT INCLUDED in the list price.

DOWEL HOLES will be drilled in all tablet designs when ordered complete with base.

BOTTOM BASES of all finished work will be of Inferior marble and sand finished unless otherwise ordered.

The Price of Bottom Bases of Inferior wash cut, sand finished and crated, is $2.00 *per cubic foot. Any change in their size may be figured at this rate.*

ESTIMATES on any work not quoted in this list cheerfully furnished upon application.

Orders for special work made to order will not be canceled under any circumstances after work has been commenced.

DOWEL-PINS WHICH WILL NOT RUST should certainly be used to set all marble work, either brass, copper, composition or galvanized iron. If galvanized iron is used, be sure that the ends of dowels are galvanized, as otherwise rust will appear from them.

Don't buy iron rods to be cut into dowels.
